Daniel Madac

Prototyping and FabLab

I build products that work: iOS & Mac apps, hardware prototypes, AI automation.

Montpellier, France ·contact@dcreations.fr ·+33 6 95 91 36 09 ·linkedin.com/in/daniel-madac-3694091bb ·github.com/D-Creates ·dcreations.fr

18 months running a photonics FabLab at Institut d'Optique: 3D printing, laser, CNC and prototypes for students, researchers and start-ups, plus the software that goes with them.

EXPERIENCE

FabLab Manager, Photonic FabLab 503 ·Institut d'Optique Graduate School, Palaiseau (Paris-Saclay) Jan 2025 - Jun 2026

CDI de projet-missions; joined Sept 2024 on a short contract

- Ran the lab and its machines: Bambu Lab 3D printers (PLA, PLA-CF, PETG HF, TPU, PAHT-CF), Trotec laser, wood and aluminium CNC, photo studio.
- Coached 2 cohorts of engineering students (FIE) and 10 hosted start-ups from idea to working prototype.
- Designed and made prototypes in Fusion 360: eyewear parts, laser-cut boards, aluminium panels, fire-retardant museum models (PETG + carbon fibre).
- Wrote the lab documentation and safety rules, managed stock and consumables, built the lab database in Notion.
- Ran workshops, trainings and events to bring the FabLab into the 503's courses and start-up programmes.
- Built free tools for the lab and published them as open source (fablab-tools on GitHub).

The contract was tied to the 503 innovation project and ended in June 2026 when the university stopped funding it.

Founder, digital studio: media, websites, AI automation ·D-CREATIONS, Montpellier / remote Aug 2025 - today

- Started in 2025 with photo and video production near Paris; now helps small businesses get found, save time with AI automation and earn good reviews.
- Shipped CineBuddy to the French App Store (Swift, Supabase); built Bouclier, an ad blocker for Safari, Chrome, Firefox and Android.

Operator, RU 1000 track renewal train ·Swietelsky, Schwechat (Vienna) and sites across Austria 2019 - 2020

- Worked in several positions on the rail processing line of the RU 1000 train; team of 30 across 7 technical roles; machines up to 5 tonnes; safety first.

Other experience: Restaurant extra, Hotel Mercure Massy (2024) ·Waiter, then manager, La Dolce Vita (Apr 2016 - Aug 2023) · Freelance web designer and IT, Independent / Recycledwelt (2018 - 2025) ·Short-let host, My parents' apartment (2017 - today) · Waiter at Admiral, Knittelfeld (2014-2015) and Mrast, Zeltweg (2015-2016), logistics in Birmingham (2014), renovation in Rome

COLLABORATIONS

DFL Eyewear (Dec 2025): 3D-printed eyewear workshop tools ·**KABLAX** (Nov-Dec 2025): 3 rounds of product prototypes · **MIHALY** (Dec 2025): CNC-cut and laser-engraved board ·**IUMTEK** (Nov 2025): 900 × 630 mm Dibond front panel

PROJECTS

Prototypes from the FabLab ·**Case study**
Fire-retardant museum models in PETG and carbon fibre, eyewear parts, laser-cut boards and aluminium panels for start-ups and makers. Fusion 360, Bambu Lab, Trotec, CNC

Software: CineBuddy (Live on the App Store (France)) ·Bouclier (Website live ·App Store in review) ·Phoenix Display (Mac app · App Store in review) ·YouTube Zeus (Open source (MIT)) ·DotWorld (Live on the web) ·VeloTrack (Open source ·Google Play testing) ·My AI team (Case study) ·AI engineering toolkit (12 skills open source)

SKILLS

Prototyping: Fusion 360 (CAD/CAM), Bambu Lab 3D printing, Trotec laser, CNC wood & aluminium, Arduino, Raspberry Pi
Photo & video: Nikon Z6 III, DaVinci Resolve, Final Cut, Lightroom, Capture One, Colour grading (Log)
Software: Swift / SwiftUI, Xcode, TestFlight, App Store Connect, Kotlin / Android, Python, JavaScript, TypeScript, React, Astro, Tailwind, Supabase, Git, GitHub Actions
AI: Claude Code (skills, plugins, hooks, MCP), Codex CLI, Gemini / Antigravity, Multi-agent workflows with review steps, Local models (Qwen, Gemma, Whisper)
Operations: Team of 10, Purchasing & stock, Pricing & planning, Customer service in several languages, Notion

LANGUAGES

Italian – native ·Romanian – native ·English – C1 ·German – B2 ·French – B1 (DELF in preparation) ·Spanish – A2

EDUCATION

ITI G. Lattanzio, Rome: computing and telecommunications, 3 of 5 years completed (no diploma) 2010 - 2013
Self-taught: Coursera, LinkedIn Learning (certificate: Generative AI for communication, Dec 2025), documentation and practice 2015 - today
